When Quality and Performance matter...

EPower VE is a non-oat nutritionally balanced diet for performance horses in equine sport or racing. A scientifically formulated muesli blend containing vitamins and minerals with essential nutrients including Vitamin E which may assist horses prone to tying up syndrome.

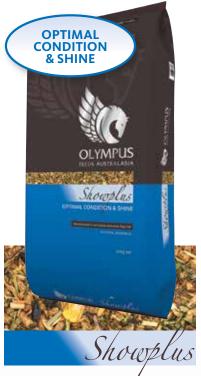

Signature is an oat based performance feed providing a nutritionally balanced diet for performance horses in equine sport and racing. Contains all essential vitamins and minerals for optimal wellbeing along with live yeast cultures to support a healthy gut and immune system.

Advance is a highly palatable sweet feed concentrate that has been formulated to meet the essential nutritional requirements of weanlings, yearlings, pregnant and lactating mares and breeding stallions.

Savvy Horse Pellets are a scientifically formulated legume and grain based pelletised feed providing quality protein and essential vitamins and minerals in a convenient, palatable and easy to feed form. Ideal for all sport and pleasure horses that are spelling or in light to moderate work.

Showplus is a scientifically balanced complete feed for optimal condition and coat shine for all sport, dressage, show and pleasure horses. Formulated with a quality blend of grains, pellets, lucerne chaff and oilseeds and enriched with essential vitamins and minerals as well as live yeast strains.
